

ECOPlanet

High performance and sustainable general use cement

eco

30%
reduction
in CO₂

ECOPlanet

The Green Cement

- ✓ High performance, high durability general purpose cement for small, medium, large construction projects.
- ✓ The first general purpose blended cement with guaranteed* low carbon emission performance in the Philippines.
- ✓ Product targeted to early adopters of sustainable construction and designed to reduce the environmental footprint.

High performance and sustainable general use cement

- High performance in strength development

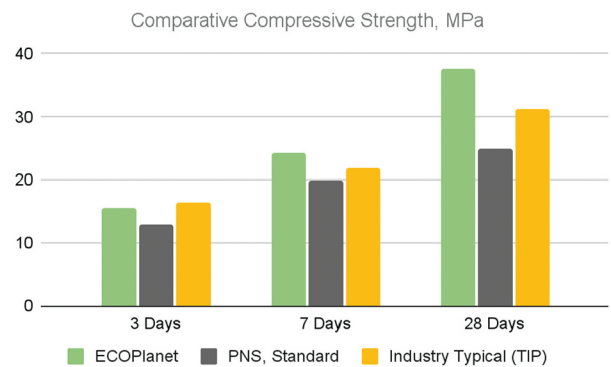

- High Durability

- Resistance to Chemical Attack
- Low porosity
- Low heat of hydration

- Sustainability Performance

Guaranteed Low Carbon footprint

- 30% or more CO₂ reduction vs Portland Cement Type I

Target Applications/Segment

STRUCTURAL AND MASONRY APPLICATIONS FOR:

- Residential (Mass and Individual)
- Commercial
- Marine Structures
- For project owners/contractors looking for solutions to reduce the environmental footprint of the buildings (CO₂).
