# Solido

High Performance Blended Cement  
for Roads and General Concreting Works

# Holcim

## Solido

**Holcim Solido** is a Premium Portland Cement with high performance additives complying to Type IP specifications of blended cement. It is formulated to offer compressive strengths exceeding national and global standards as well as durability properties for longer lasting structures.

**Holcim Solido** is produced with lower CO<sub>2</sub> emission than Ordinary Portland Cements making it a more sustainable replacement in some applications such as road concreting.

### Applications

-  ReadyMix
-  Roads and Bridges
-  Concrete Products
-  General Construction
-  Buildings
